RE: ***Notice of Ex Parte Presentation Regarding Facilitation of Widespread
Deployment of and Access to Wireless Services***
WT Docket Nos. 03-264 and 04-180

Dear Secretary Dortch:

On September 8, 2004, Mark Racek, Director of Spectrum Policy, and Barbara Baffer, Vice President of Public Affairs and Regulations, for Ericsson Inc, and I met with members of the Wireless Telecommunications Bureau including Lloyd Coward, Deputy Chief, Mobility Division, Roger Noel, Division Chief, Mobility Division, Jay Jackson, Engineering Advisor, Mobility Division, and Shellie Blackeney, Legal Advisor on Mobility Issues to Acting Deputy Bureau Chief Peter Tenhula. Technical experts for Ericsson Inc, Farshid Ghasemzadeh, Mats Samuelsson, and Patrik Lundqvist, participated in the meeting by teleconference.

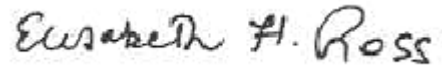

During this meeting, we discussed Ericsson's proposals for revision to the Section 24.232 of the FCC's administrative rules, including that the FCC (1) revise its requirement that transmitter output power and e.i.r.p. be measured on a "peak" basis to allow measurement on an "average" basis as an alternative; (2) remove or increase its transmitter output power limits; (3) increase its base station e.i.r.p. limit; and (4) restructure its base station e.i.r.p. limit to 6560 watts/MHz per carrier for carrier bandwidths 1 MHz and greater, and 6560 watts e.i.r.p. per carrier for carrier bandwidths less than 1 MHz. A summary of the issues discussed at the meeting is attached hereto.

Pursuant to sections 1.1206(b)(1), 1.1206(b)(2), and 1.49(f) of the Commission's rules, an original and one copy of this letter along with the attachment are being filed with the Office of

Ms. Marlene Dortch

the Secretary in the above-referenced dockets. Copies are also being served on the Commission personnel in the meeting.

Sincerely,

A handwritten signature in dark ink, appearing to read "Eusebia H. Ross". The signature is written in a cursive, flowing style.

Attorney for Ericsson Inc
